

ABSTRACT OF THE DISCLOSURE

A lightweight, portable, waterproof storage case for placement on or about the neck, arm, ankle, wrist or waist of an individual involved in outdoor activities includes a storage case body defining an interior chamber wherein personal items and effects can be
5 held and a secondary storage compartment adjoined to the storage case body and of a smaller dimension for receiving and holding therein paper items such as amusement park passes, a driver's license or credit cards. In addition, a lid is pivotally attached to the body of the storage case for waterproof sealing of the chamber from the external environment, and the lid is sealably fastened to the storage case body by a closure
10 member. The storage case can be attached to the individual's neck, arm, ankle, wrist or waist, or an article of clothing, by a cord or lanyard, a flexible strap, or a side waist clip.
